

HLA Value Fund (HLVF)

January 2022

Fund Features

1. Investment Objective

The objective of the fund is to achieve large capital gains by investing in companies that are well-managed and financially stable which are undervalued or at deep discount to their net tangible asset values.

2. Investment Strategy & Approach

The strategy is to provide investors an access into a diversified portfolio of value stocks listed on Bursa Malaysia and/or in any foreign stock exchanges that offer potential capital appreciation. The fund may feed into collective investment schemes that meet the fund's objective. At inception, the fund will invest by feeding into Hong Leong Value Fund, formerly known as Hong Leong Penny Stock Fund ("Target Fund") with the option to increase the number of funds or replace the Target Fund in future. The Target Fund will invest with a value investment strategy across equity securities of all market capitalization level of companies operating in Malaysia. Generally, companies that have valuations at a discount to the market and/or its sector peers are selected. Additionally, the Target Fund may also invest in stocks with market capitalization of up to RM1 billion that are not well covered by equity research houses and stockbrokers.

3. Plough Back Mechanism

In the event that the net fund performance is below 5% per annum based on the performance assessment on the last business day of September of each year, an amount equivalent to 0.5% per annum of the fund's Net Asset Value (NAV) will be ploughed back to the fund in four equal weekly payments. The first payment will be due on the first business day of October of each year.

4. Asset Allocation

The indicative asset allocation for Target Fund is to invest a minimum of 70% of its NAV in equities and maximum 30% of its NAV in fixed income securities. Generally, HLA Value Fund may invest up to 95% of its NAV in equities.

5. Target Market

This fund is suitable for investors who have a higher than average risk tolerance level, medium-term investment horizon, and are able to accept the anticipated higher volatility of the fund.

HLA Value Fund (HLVF)

Market Review, Outlook & Strategy

During the month, the FTSE BM KLCL declined 3.5% to close at 1,512 points. The broader market underperformed as the FTSE BM EMAS Index declined 3.9% to close at 10,872 points. Small caps outperformed as the FTSE BM Small Cap Index declined 1.6% to close at 15,507 points.

It was a turbulent month for the local market due to investors' concerns about rising global inflation and the likely trajectory of the US Fed interest rate. The local technology sector was the worst performing sector and appeared to have hit an air pocket as it declined 15.2% during the month.

On the corporate front, Maybank Berhad has appointed Datuk Khairussaleh Ramli as its new CEO after he has resigned as CEO of RHB Bank Berhad. AirAsia Berhad has been renamed Capital A Berhad to reflect the group's new business strategy and direction as an investment holding group with a portfolio of various travel and lifestyle businesses.

The Fund will continue to identify companies that are potential winners in growing industries helmed by capable management.

Investment Risks

All investments carry risks. Policy Owners must be prepared to accept certain degree of risk associated with this Investment. The following are the non-exhaustive list of risks associated to this fund.

1. Market Risk

Market risk stems from the fact that there are other economy-wide perils, which threaten all businesses. It is mainly caused by uncertainties in the economy, political and social environment.

2. Liquidity Risk

Liquidity risk is the risk that the fund invested cannot be readily sold and converted into cash. This may arise when the trading volume is low and/or where there is a lack of demand for the security.

3. Credit Risk

This refers to the possibility that the issuer of a security will not be able to make timely payments of interest or principal repayment on the maturity date. The default may lead to a fall in the value of the funds.

4. Interest Rate Risk

The level of interest rates has an impact on the value of investments. Any increase in rates will lead to a fall in the value of securities, thus affecting the value of the funds.

5. Concentration Risk

This risk is associated with a feeder fund whereby the investments of such fund are not diversified. A feeder fund invests mainly into another collective investment scheme.

If the fund invests in Foreign Asset, the fund will be exposed to the following risks:

6. Country Risk

The foreign investment of a fund may be affected by the political & economic conditions of the country which the investments are made.

7. Currency Risk

This risk is associated with investments that are denominated in foreign currencies. Fluctuation in foreign exchange rates will have an impact on the value of the funds.

Risk Management

The company has in place its Authorized Investment Framework which forms part of the Risk Management process. The authority framework covers the nature and scope of the investment authority that is exercisable by various parties in managing the Company's investments. The potential investment risks that are taken into consideration in managing the fund include economic conditions, liquidity, qualitative and quantitative aspects of the securities. The investment manager(s) have put in place the following controls to reduce the risks through:

- having a flexible tactical asset allocation
- investing in a wide range of companies across different sectors
- setting prudent investment limits on various exposures
- taking into account the liquidity factor in selecting securities
- engaging in the hedging of foreign currency exposure where appropriate

HLA Value Fund (HLVF)

Basis of Unit Valuation

1. The assets of every fund are to be valued to determine the value at which units of a particular fund can be liquidated or purchased for investment purposes.
2. The unit price of a unit of a fund shall be determined by the Company but in any event shall not be less than the value of fund of the relevant fund (as defined below), divided by the number of units of the given fund in issue on the business day before the valuation date, and the result adjusted to the nearest one hundredth of a cent.
3. The maximum value of any asset of any fund shall not exceed the following price:
 - a) The last transacted market price at which those assets could be purchased or sold on the business day before the valuation date; or
 - b) In the case of securities for which market values are not readily available, the price at which, in our Investment Manager's opinion, the asset may have been purchased on the business day before the valuation date; plus any expenses which would have been incurred in its acquisition.
4. To ensure fair treatment to all unit holders, the cost of acquiring and disposing of assets is recouped by making a transaction cost adjustment to the net asset value per unit.

Exceptional Circumstances

The Company reserves the right to defer the payment of benefits (other than death benefit) under this Policy for a period not exceeding six (6) months from the date the payment would have been normally effected if not for intervening events such as temporary closure of any Stock Exchange in which the fund is invested which the Company, in its discretion, may consider exceptional.
